Objective

To obtain a challenging position as a React Native Developer where I can apply my 2.5 years of experience in developing cross-platform mobile applications, contribute to innovative projects, and enhance my technical and problem-solving skills in a growth-oriented organization.

Experience

- Drop Technolab Private Limited** 21-8-2023 - Present
React Native Developer
Started as an intern and grew into a full-time React Native Developer, contributing to multiple cross-platform mobile applications for Android and iOS. Gained hands-on experience in end-to-end mobile app development — from UI design integration and API connectivity to testing and publishing on app stores.

Projects

- AGRT Samaj App**

Tech: React Native, Context API, REST API, Firebase Notification, Payment Gateway

Play Store: Available

Description:

A community-driven mobile application built for AGRT Samaj, enabling members to connect, engage, and participate in events.

Key Contributions:

Developed modules for Home, Posts, Events, Members, Business Listings, and Matrimonial.

Implemented secure login & profile management.

Built event booking for members and guests.

Integrated Redux for state management and REST APIs for backend communication.

Delivered responsive UI, scalable architecture, and smooth cross-platform performance.

- SSP Samaj App**

Tech: React Native, Redux, REST API, Payment Gateway, Firebase Notification

Description:

A modern social community app with upgraded UI/UX and expanded functionality for projects, jobs, and schemes.

Key Contributions:

Created pages for Projects, Jobs, Schemes, Members, Posts, Events, Matrimonial, and Business listings.

Added event booking and secure authentication system.

Implemented modular architecture with Redux and optimized API integrations.

Enhanced user experience with clean, modern design and smooth navigation.

- **SKP Matrimonial App**

Tech: React Native, Firebase, CCAVANUE, Redux, REST API

Description:

A complete matrimonial platform for the Kadva Patel community.

Key Contributions:

Built 10-step registration with save & continue (incomplete profile support).

Developed dashboard and profile management.

Integrated Firebase push notifications.

Added in-app payment system for premium features.

- **Inventory Management**

Tech: React Native, Zustand, REST API, Multilingual Support, Dark-Light Mode

A complete inventory solution with secure login, stock alerts, and sales/purchase analytics. Built Item Master with pagination, filtering, sorting, and bulk actions. Implemented Category, Warehouse, Project, and Role Management with full CRUD. Added multilingual support (EN/HI/GU), detailed reports, profile settings, and customizable fields for scalable inventory operations.

Skills

- React Js
- React Native
- Typescript
- Expo
- REST API integration
- Redux
- Zustand
- Git
- React-hook-form
