Objective

Passionate React Native Developer with hands-on experience in building scalable cross-platform mobile applications for Android and iOS. Skilled in API integration, state management, real-time databases, and performance optimization. Strong ability to design clean UI/UX solutions and deliver high-quality production-ready applications.

Experience

- Drop Technolab Private Limited** August 2023 - Present
React Native Developer
 - Developing and maintaining cross-platform mobile applications.
 - Integrating REST APIs, Firebase services, and -payment gateways.
 - Managing state using Redux and Zustand.
 - Publishing and maintaining apps on Play Store and App Store.
 - Collaborating with backend and UI/UX teams for smooth delivery.

Projects

- AGRT Samaj App**
Tech: React Native, Context API, REST API, Firebase Notification, Payment Gateway
A community-driven mobile application built for AGRT Samaj, enabling members to connect, engage, and participate in events.
Key Contributions:
 - Developed modules for Home, Posts, Events, Members, Business Listings, and Matrimonial.
 - Implemented secure login & profile management.
 - Built event booking for members and guests.
 - Integrated Context API for state management and REST APIs for backend communication.
 - Delivered responsive UI, scalable architecture, and smooth cross-platform performance.
- SSP Samaj App**
Tech: React Native, Redux, REST API, Payment Gateway, Firebase Notification
A modern social community app with upgraded UI/UX and expanded functionality for projects, jobs, and schemes.
Key Contributions:
 - Created pages for Projects, Jobs, Schemes, Members, Posts, Events, Matrimonial, and Business listings.
 - Added event booking and secure authentication system.
 - Implemented modular architecture with Redux and optimized API integrations.
 - Enhanced user experience with clean, modern design and smooth navigation.

- **SKP Matrimonial App**

Tech: React Native, Firebase Notification, CCAVANUE, Redux, REST API

A complete matrimonial platform for the Kadva Patel community.

Key Contributions:

Built 10-step registration with save & continue (incomplete profile support).

Developed dashboard and profile management.

Integrated Firebase push notifications.

Added in-app payment system for premium features.

- **Tennis Scoring Board App**

Tech: React Native, Firebase Realtime Database, React Hook Form, QR Code

Real-time tennis scoring application with role-based access control.

Organizer can create, edit, delete, and share matches via QR code.

Players join matches by scanning QR and view live score updates.

Score changes sync instantly across devices using Firebase.

Only organizer controls match details; others have limited permissions.

Skills

- React Native
- Typescript
- Redux / Zustand
- Firebase (Real-time Database, Notification)
- Reast API Integration
- React Hook Form
- Git

Education

- **Shastri Swami Shree Dharmajivandasji Institute of Information Technology**
BCA
7.74 CGPA

March - 2023

Interests

- Cricket
- Music
